PROFESSIONAL SUMMARY

CS graduate with hands-on experience in Java, Spring Boot, REST APIs, and full-stack development. Freelance-delivered a live React + Node.js e-learning platform (Instil Academy) with Google OAuth, Razorpay payment integration, MySQL/Prisma backend, and backend API deployed on Google Cloud Platform (GCP). National hackathon finalist (I4C/MHA New Delhi & Odoo 2025) with independently built AI/ML systems achieving 90%+ accuracy. Proficient in Docker and GitHub Actions CI/CD pipelines; completing enterprise Java microservices development at QSpiders, Chennai.

EXPERIENCE

Freelance Web Developer | Instil Academy

Apr 2025 – Jun 2026

React • Vite • Node.js • Express • MySQL • Prisma ORM • Google OAuth • Razorpay • JWT • GCP • REST APIs

- Designed and delivered a full-stack e-learning platform for IIT-JEE/NEET coaching institute, actively serving students.
- Built secure RESTful backend with Node.js/Express, Prisma/MySQL, and Google OAuth; deployed on GCP.
- Integrated Razorpay payment gateway and developed admin dashboard for student/course management on Vercel.
- Implemented timed online test module with real-time scoring, leaderboards, and analytics.

Full-Stack Java Trainee | QSpiders

Jan 2026 – Present

Core Java • Spring Boot • REST APIs • JDBC • Maven • MySQL • Docker • GitHub Actions • Agile/Scrum

- Developing modular Spring Boot microservices applying SOLID principles, design patterns, and MVC architecture.
- Integrating responsive web front-ends with Java backends via JDBC and containerizing services using Docker.
- Configuring CI/CD pipelines using GitHub Actions for automated build/deployment and version control with Git.

PROJECTS

Cyber Crime Report Classification System | I4C National Hackathon — New Delhi

2025

Python • NLP • TF-IDF • scikit-learn • MySQL • REST API • FastAPI

- Developed end-to-end NLP text-classification pipeline achieving 90%+ accuracy and deployed via REST API.
- Presented to cybersecurity stakeholders at I4C/MHA New Delhi and advanced as Round 2 National Qualifier.

Emotion-Based Movie Recommendation System | Final Year Project

2026

Python • TensorFlow • Keras • OpenCV • CNN • FastAPI • MySQL • Docker

- Built a 4-layer AI architecture with a custom CNN model, OpenCV real-time inference, and FastAPI backend.
- Achieved 90%+ facial emotion recognition accuracy, backed by a MySQL recommendation engine.

TECHNICAL SKILLS

Languages:	Java (Primary) • Python • JavaScript • SQL
Backend:	Spring Boot • Node.js • Express • REST APIs • Microservices • JDBC • Maven • FastAPI
Frontend:	React • Vite • HTML5 • CSS3 • JavaScript
Databases:	MySQL • Prisma ORM • Oracle SQL • Data Modelling
Cloud/DevOps:	Google Cloud Platform (GCP) • Docker • GitHub Actions (CI/CD) • Vercel • Linux
AI / ML:	TensorFlow • Keras • scikit-learn • CNN • NLP/TF-IDF • OpenCV
Practices:	SOLID Principles • GoF Design Patterns • MVC • Agile/Scrum • Unit Testing
Tools:	Git • GitHub • IntelliJ IDEA • VS Code • Postman

EDUCATION

B.E. Computer Science & Engineering

2022 – 2026

PT Lee Chengalvaraya Naicker College of Engineering & Technology

CGPA: 7.97 / 10.0

AWARDS & CERTIFICATIONS

- National Finalist** — Odoo Hackathon 2025: Shipped full-stack Java/AI platform within 48 hours.
- Round 2 Qualifier** — Cyber Guard AI Hackathon (2025): Shortlisted nationally and presented to government stakeholders.
- Certification** — Crash Course on Python: Google / Coursera.
